A fun and lively Spanish language course. We will be using all four skills, speaking, listening, reading and writing which will be practised through practical activities. The course is aimed at people wanting to be able to communicate whilst travelling, speak to Spanish people or simply as a way of having fun.

We will cover topics such as greetings and introductions, talking about yourself and family, ordering drinks and food in a bar, and other topics according to student's requirements.

Basic Spanish grammar will be explained.
